

# Taco® Solar Water Heating

Taco makes comfort easy across a wide spectrum of system applications. Products like the Solar X-Pump Block combine a stainless steel flat plate heat exchanger, 2 bronze circulators and a solar differential temperature control in one compact package which makes installation a snap. An assortment of circulators with integral solar differential temperature controls are able to accommodate a wide variety of solar thermal installations. Easy to install, our solar pumps, components, controls and systems deliver unmatched reliability and performance that will brighten your day.
